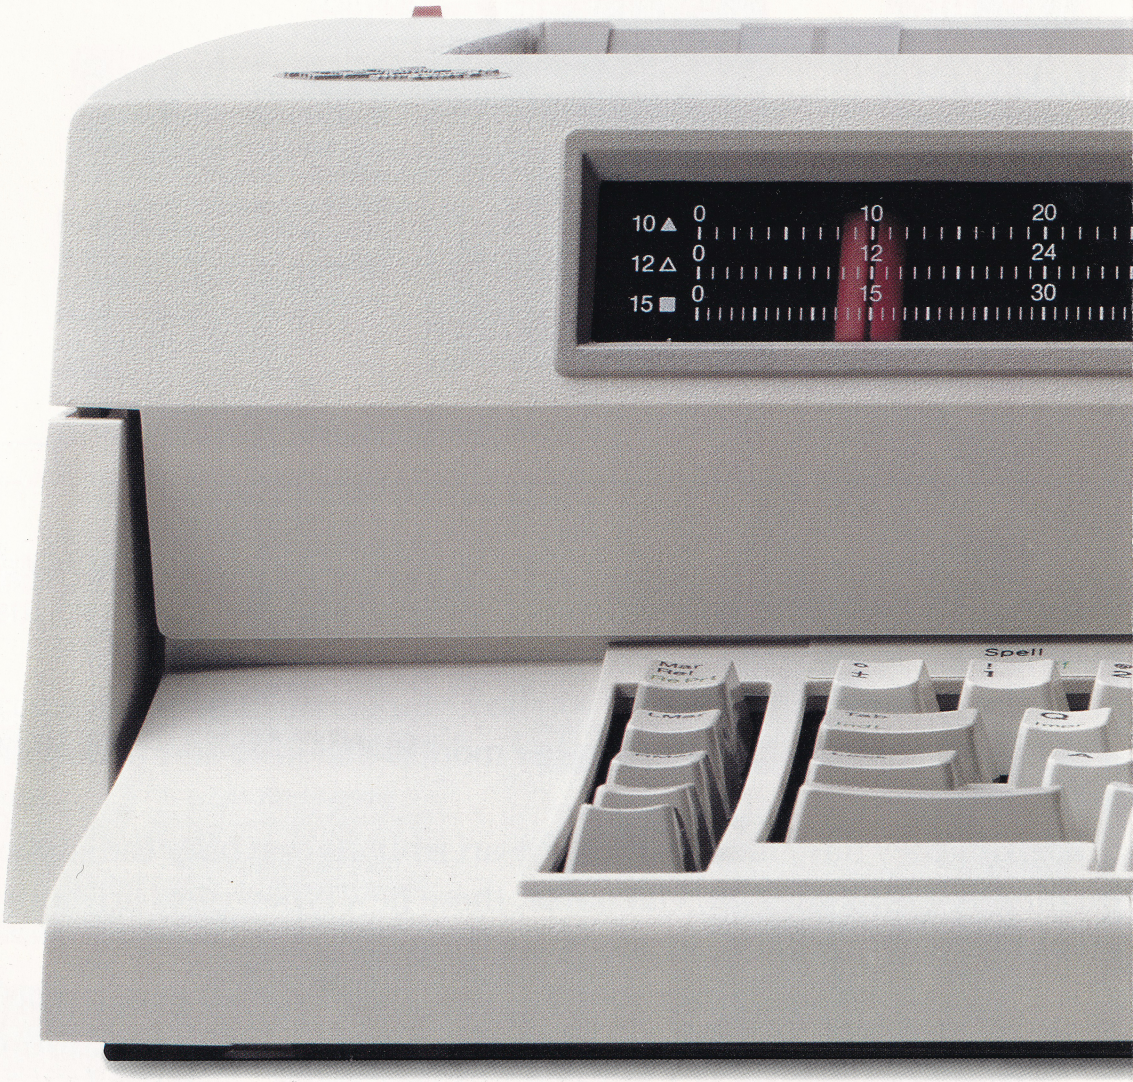
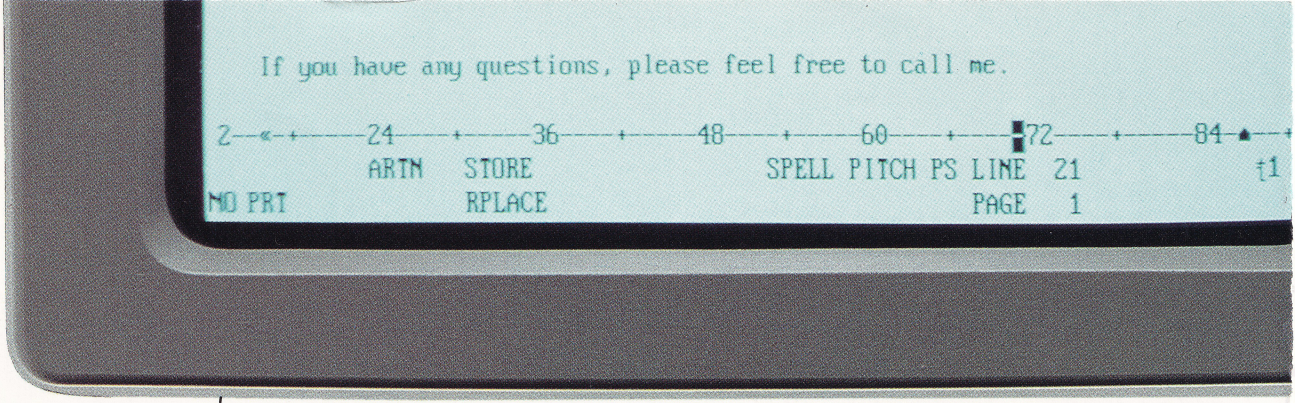
There's only one thing better than an IBM typewriter.



30 40 50 60 70 80 90 100
36 48 60 72 84 96 108 120
45 60 75 90 105 120 135 150

A new IBM Wheelwriter Series II typewriter.



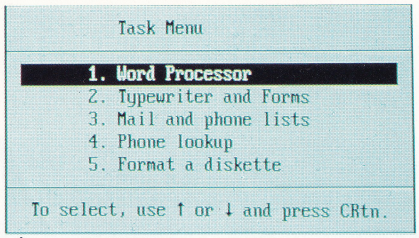
Displays.
Use our nine-inch or simple one-line to review your work before it hits the paper.

Status.
This line tells you what mode you're in: bold, all caps, double-space, whatever.

Reverse Video.
Pick black type on white. Or white type on black. With this screen, you can have your choice.

Memory.
Choose the amount you need. If you want to save a few standard forms, get a little. If you're revising lengthy contracts, get a lot.

Menu.
Use your typewriter to do more than just type. This key helps you look up phone numbers, search records, even print out mailing labels.



Task Menu
1. Word Processor
2. Typewriter and Forms
3. Mail and phone lists
4. Phone lookup
5. Format a diskette
To select, use ↑ or ↓ and press CRtn.

Now the typewriters secretaries prefer most are even better.

With our new family of Wheelwriter® Series II typewriters you can make corrections faster, check your spelling automatically and store up to dozens of pages in memory. The most advanced models make word processing almost as simple as ordinary typing.

In fact, we've gone to great lengths to make sure these typewriters are easy to use. New function keys are clearly marked—so you can find them without looking them up in a manual. Displays adjust to the height of your chair, even to the light coming in your window. It's a whole new class of typewriters with the classic IBM touch.

Spell Check II.

It catches mistakes before the boss does. When you make a typo, it makes a beep. It can even help you respell and retype the word.

Quick-Change Ribbon.

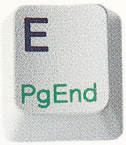
Our new EasyStrike® Superior Write ribbons keep ink on the paper and off your hands. They print dark– even on textured paper. You can pop the cartridges in and out in a snap. And what's more, the same cartridge fits every Wheelwriter Series II typewriter.

Directory.

Use this function to see a list of all the files you've stored in memory. Each title will show up to 50 characters–such as "April 15, 1988 Ms. Andrea Seymour Secretarial Corp." This makes them easy to find later.

Bold Key.

When you have something twice as important to say, print it twice as dark.



Page End.

This automatically ends pages where you want them to end. Helpful for preparing title pages and other pages with little text.

Word Erase.

Since this typewriter remembers the words you've typed– and where–it can also erase those words, automatically. Press this coded key and a whole word disappears.

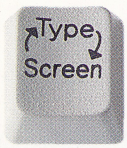
RePrint.

Use this function to get extra originals of the page you've just typed. As many as you want.

Introducing the IBM Wheelwriter Series II family.

Help.
When you're not sure how to get things done, this function tells you which buttons to push.

Express Cursor Keys.
These keys zip you forward, backward, and around the page for quick additions or corrections.



Hot Key.
If you're interrupted mid-page, this key lets you switch from word processing to typing and back. Without losing any of your work.

Diskettes.
Opt for our tiny diskette drive and your typewriter will have unlimited storage capacity. Just like a computer. Each 3½-inch diskette holds up to 350 pages.

Different models come with different features. Ask your dealer. © IBM 1988.

Of course, with the Wheelwriter Series II family, you not only get more features. You get more typewriters. So you can pick the one that's just right for your needs.

If your needs change after you buy, you needn't change typewriters. They can be upgraded easily to other models that offer additional functions and displays.

And they have new state-of-the-art ribbons that offer the superior print quality IBM is famous for. Of course, these new typewriters are built with the reliability you've come to expect from IBM.

See the new Wheelwriter Series II family of typewriters at your Authorized IBM Typewriter Dealer. For a dealer near you, call 1 800 IBM-2468, ext. 55.

No matter which model you choose, you know you'll be choosing the best.
